ABOUT ME

I am a third year engineering student eager to get real world experience in engineering and design. I am comfortable with HTML, Python, Pygame, CSS and JavaScript. I am excited to learn and to contribute to your team to the best of my abilities!

SKILLS

`Python` `HTML` `CSS`

`JavaScript` `ReactJS` `SQL`

COURSES

Python for beginners, *Udemy*

Foundations of User Experience (UX) Design, *Coursera*

Responsive Web Design, *freeCodeCamp*

ORGANIZATIONS

Help For Coders, *SEO Specialist*

Aarambh, *Head*

Moksh, *Head*

PROJECTS

Space InvaderZ, *Pygame*
This is a game with a moving target that is to be shot. This helped me better understand the appropriate usage of modules in Pygame.

Snake game, *Pygame*
I created a look-a-like of one of the most well loved games using Pygame module of Python. This was one of my favourite projects.

Pong, *Pygame*
This is a tennis-like game. As the ball moves, its path gets traced. It involved moving the two paddles so as to hit the ball.

Calculator, *ReactJS*
I made an iOS calculator. This was a code-along.

EDUCATION

Bachelors of Engineering,
Mumbai University
June 2021 – present
Sem1: 10 pointer
Sem2: 9.7 pointer
Sem3: 9.96 pointer
Sem4: 9.48 pointer
12th - 83%
2020

10th - 94%
2018

INTERESTS

`Guitar` `Kniting` `Drawing`

`Makeup & Fashion`
